# / IMPRESSIVE EVENTS NEED AN IMPRESSIVE LOOK

**AS AN INTEGRATED SOLUTIONS PROVIDER FOR EVENTS, EXHIBITIONS, AND FIT-OUT, OUR OFFER INCLUDES A TENT AND MARQUEE RENTAL SERVICE.**

Choosing the right venue for your event is critical; that's why more event planners than ever are choosing temporary structures over traditional spaces. Developed using the latest technology, our temporary structures provide all the benefits of traditional venues and more.

Choose between a range of unique shapes and sizes constructed according to the highest international standards of quality and safety including fire-proof fabrics imported from Europe. At Electra we have our own in-house production facility, including engineers, carpenters, painters, upholsters, and a dedicated tent & marquee department and storage facility. This allows us to have better quality control, be flexible and react to last minute changes. An account manager will be your single point of contact supporting all the way, from planning, production and logistics to build-up and dismantle, ensuring a peaceful delivery, every time. Browse our catalogue for inspiration. There are structures to suit formal events and intimate gala dinners, exhibitions and concerts. Smaller structures are suitable for mall pop-ups, VIP areas or staging areas.

Can't find exactly what you are looking for? Get in touch with our helpful and experienced team. We will help you find the ideal tent solution to match your event needs. Visit [electrasolutions.com](https://electrasolutions.com) to see our portfolio and request an quote.

# / 1 STRUCTURES OVERVIEW

**A temporary structure is an ideal substitute for a traditional venue delivering solutions for creating, structuring and expanding space to meet the special needs of your event dining, meeting, exhibiting.**

# / Structures Benefits

As one of the leading providers of tent and marquee rental solutions in the Middle East, we have a large inventory of temporary structures of different styles and shapes to suit every event situation.

Our temporary structure collection ranges from classic marquee tents to unique structures such as Dome and Polygonal all with their own unique advantages.

## Temporary structures have multiple benefits

### VARIETY

Pick amongst different shapes and sizes to suit every kind of event.

### MODULARITY

Possibility to link different units together. Create a larger space, a dedicated entrance or use as service tents for technical areas.

### FLEXIBILITY

Expand an existing space by covering a plaza, terrace or parking area or pool.

### CUSTOMISATION

Get the look and feel you want with multiple options in terms of colour, branding, frontage, roofing, flooring, panels, windows, doors, etc.

### AVAILABILITY

Rent a structure when and for as long as you require, up to six months.

### COST EFFICIENCY

Achieve better cost efficiency compared to traditional venues.

### SAFETY

All our structures are constructed and maintained with the highest safety standards, including safe entry and exit, efficient wiring and cabling and top-quality fire-proof materials.

EXPLORE THE UNIQUE SELECTION OF CREATIVE EVENT SPACES

# / Sustainability In Structures

We do everything feasible to minimise our impact on the environment. Handling all our own logistics and transportation, packing, installation and dismantling means we have more control over the whole process. This helps make us more energy efficient and waste conscious.

Examples of our sustainable solutions for events and exhibitions include:

## TEMPORARY STRUCTURES

Our tents and pavilions are constructed using the finest grade materials, enabling them to be used for decades. Many of the component materials can be re-purposed or recycled at end of life.

For instance, we use highest graded PVC material. It can be re-used multiple times with no wear and tear, making recycling virtually unnecessary. Should we ever need to recycle our PVC, it can be returned to the supplier's product bank, where it can be salvaged using their new raw materials production recycling.

## THE CUBE'S ENERGY EFFICIENCY

The pressurised roof and improved insulation reduces fuel consumption by 15% compared to other temporary structures.

## ECO-FLOORING

We use an environmentally friendly flooring solution for all our temporary structures. Rather than plywood, we use certified sustainable European spruce wood certified FSC (Forest Stewardship Council).

## RECYCLABLE MATERIALS

Any customised wood and metal elements of our constructions used for interior décor such as majilis areas, decorative dividers and bespoke installations that cannot be reused after the project are entirely recycled locally in the UAE.

## ECO-FRIENDLY MODULAR SOLUTION

**SLIK, our innovative zero waste re-usable modular solution, is ideal for creating walls, display cases and shelving for any events, including to divide the space inside temporary structures. The separate components can be assembled in different configurations, dismantled and then utilized more than once.**

# / Pagoda

Pagoda tents are a classy choice for any small to medium sized event. Use the Pagoda as a stylish entry way, reception area, or retail outlet. Cost-effective and quick to put together, this tent has a distinctive well-loved shape. Free standing with a tensioned pyramid roof supported on a frame without centre pole, our Pagoda tents use high quality PVC.

Available in 4 convenient sizes, the Pagoda has many different customisation options. Select an open or closed structure depending on the event. Use for a site office, to provide shading for an outdoor event, or even to house guests in a hospitality village.

ARCUM

THE CUBE

# / Dome

The Dome is the ideal alternative to a typical marquee. Sophisticated, functional and versatile, the unconventional geodesic shaped Dome can be installed virtually anywhere in as little as 6-48 hours depending on the chosen size.

This light, modernistic structure is available in 3 convenient sizes with the option of interlocking

several Domes for even more space. Create connected arrangements of different sized structures for an exclusive organic look. Suitable not just for hosting a dinner party or reception, the Dome can serve for a quick mall activation, a press room or an exhibition or conference sign up area. It's also suitable for rigging, lighting and sound equipment.

ARCUM

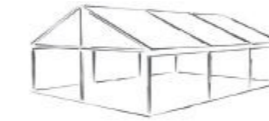

THE CUBE

# / 2-Slope

Sloping tents are a perennial and a classic favourite for events. The 2-slope tent provides an even more graceful outline than conventional sloping tents with the two slopes of the tent meeting in the centre at a sharp angle to create a sharply pleasing silhouette.

Elegant and spacious, the tent can be quickly assembled and dismantled, and the canvas can be customised.

Available in 3 sizes, which can be extended in 5 metre increments, the 2-slope suits a variety of events from small and intimate to large and commercial. Position the structure on our double-deck to create a show-stopping effect, providing open views of the exterior.

POLYGONAL

ARCUM

THE CUBE

# / Polygonal

The Polygonal is a versatile aesthetically pleasing solution for larger scale events. The unique shape yields a larger upper volume creating a luxurious impression of space. Simple and classic with an innovative multi-angled look, it can be dressed up with lighting, furniture and décor to host a gala, or turned into a hip temporary night club. It's spacious enough to host a sports competition or even a large exhibition.

Designed for quick installation and easy customisation, with a premium aluminium frame combined with high quality PVC canvas. Choose a full grey roof to provide elegant shading and a clear roof to let in the sun or to provide unimpeded views of the night sky.

Available in a variety of widths, with the option of expanding length in 5m increments, the Polygonal can also be combined with the Double deck structure to offer even more stunning event views.

### / 20M POLYGONAL

POLYGONAL

ARCUM

THE CUBE

# / Arcum

A softer take on the traditional two-sloped tent, presenting a newer and more modern take on traditional tent. The key feature is a graceful curved roof created when the two slopes of the tent meet in the centre in a gentle arc rather than a sharp angle.

The Arcum is gracious and stylish, with a light and open ambiance, spacious and sophisticated enough to host a banquet, wedding or even a fashion show.

The frontage can be customised to suit the event theme or brand.

Different glazed or hard panelling options can add an extra decorative flair.

Available in two widths and lengths increasing in 5 metres increments.

THE CUBE

# / The Cube

With its clean facade and invisible roof, the Cube is the closest thing to a permanent building achievable in a temporary form. Using an agile construction system of interchangeable horizontal panels, the "Cube" can be set up quickly and simply. This revolutionary and elegant shape can be used for large parties, weddings, banquets, corporate events and even gigs/concerts.

Key features include variable widths and modular lengths to get the floor space you want, and

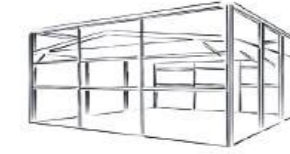

different interior and exterior customisation options, including a second skin to create the appearance of straight walls. Remove the roof to create an al fresco entrance or stunning atrium for guests. Conceal generators, air handlers or chillers within the smallest Cube structure for a streamlined look.

Available in 4 widths. Length is adjustable 5-meter increments.

## / 3 ACCESSORIES

Choose among our range of accessories to put your special touch on the event. We provide multiple options for customisation and bespoke fittings and furnishings.

# / Accessories

## FLOORING

A great event is built from the ground up. We provide high quality flooring materials to suit every sort of occasion allowing you to host your event on any sort of surface; sand, grass, concrete.

### Standard

- / Cassette flooring
- / The eco-friendly floor locking system is made using spruce wood from Europe certified by FSC (Forest Stewardship Council) an NGO setting environmentally responsible forestry standards. This certification is considered the gold standard for harvested wood. With a height of 17cm it can hold 500 kilos per square metre making it a safe and efficient option to accommodate extra weight.

### Customisation

- / Carpet
- / Lino
- / Ramps and stairs can be custom-made to fit any height including disabled access
- / Endless possibilities available upon request

## DOORS

### Standard

- / Double door set with windows in white
- / Includes emergency push bar access and lockable door for extra safety and security

### Customisation

- / Single door on request
- / Double doors (no window) on request

### Placement of doors

- / Centre
- / Left of the structure leg
- / Right of the structure leg
- / 2x double doors side by side

**NOTE** - Doors cannot be used if bracing is in place

## PANELS AND WINDOWS

### Standard

- / Horizontal hard panel white
- / Horizontal glass panel

### Customisation

- / Coloured panels upon request
- / Sticker/graphics for branding or coloured panels

### Façade/second skin

- / Mashrabiya
- / Standard graphic banner
- / Curved graphic banner
- / Light box
- / Bespoke design elements available upon request

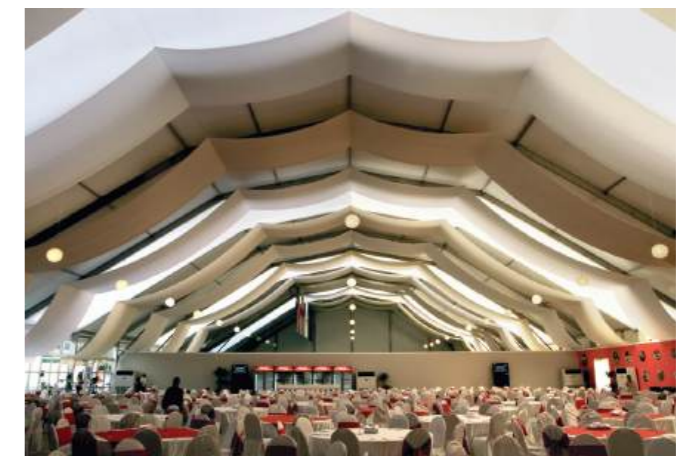

## ROOFS, WALLS, GABLES

### Standard Roof

- / Black-out/opaque roof in white

### Roof Customisation

- / Transparent/crystal roof
- / Translucent
- / Option to have closed/inside gables
- / Coloured
- / Branded

# / Accessories

## AIR CONDITIONING AND VENTILATION

In the often hot and humid Middle Eastern climates, guaranteeing thermal comfort during events is critical. We provide both free-standing and ducted A/C solutions as required, while ensuring adequate ventilation.

### Customisation

- / Free standing AC solutions for all tent structures upon request
- / Ducted AC solutions for large-scale events upon request
- / Custom made covers upon request

## CLADDING

Explore customisation possibilities and flexible exteriors. Depending on the size, our structures can be fully branded with printed banner or fabric and cladded with any design made of wood or aluminium to reflect your event or company's colours.

## LIGHTING

We provide the following standard choices which can be customised to suit your lighting scheme:

- / Arm lights
- / Bay and flood lighting
- / Down lighters
- / Track light and spot lights
- / LED bar and tube lights
- / Rope and strip light
- / Emergency and first batteries
- / Truss, sockets and plugs
- / Lamps and decorative lights
- / Decorative lights

## FURNITURE & DECOR

Enhance any interior with decor, furniture and fittings. Our furniture rental collection features exclusive design styles to completely transform any occasion. Our carpenters, painters and upholsterers can customise any piece and create made-to-measure decor elements.

### Décor

- / Furniture rental items
- / Drapes and curtains
- / Mashrabiya walls
- / Majilis areas
- / AC covers
- / Bespoke elements upon request
