/ BEYOND THE ORDINARY - TEMPORARY STRUCTURES THAT MAKE A STATEMENT

When your event calls for something truly exceptional, ordinary venues simply won't do. At Electra, we offer **premium tents and marquees** that redefine what's possible – combining architectural impact, high-performance engineering, and full turnkey support to deliver **unforgettable experiences** across the Middle East and beyond.

With logistics hubs in Dubai and Riyadh, our solutions are built for agility, scale, and precision. From large exhibitions and corporate galas to private celebrations, concerts, and pop-up activations, our structures offer the freedom to create custom environments where creativity meets functionality.

Backed by **in-house production** facilities, a dedicated tent and marquee division, and European-grade fire-resistant fabrics, we ensure:

- Maximum safety and durability
- Full compliance with international standards
- Flawless finish and fast turnaround

Whether you're after striking aesthetics or smart spatial planning, our range of customisable shapes and sizes provides options for every kind of event. You'll be supported every step of the way by a dedicated account manager – from planning and engineering to on-site build and dismantle.

Discover what's possible.

Browse this catalogue for inspiration or contact our expert team to bring your vision to life.

/ 1 STRUCTURES OVERVIEW

Temporary structures offer a smart, flexible alternative to traditional venues – perfect for event dining, meetings, exhibitions, and more. Whether you're expanding space, building from scratch, or creating a fully branded environment, our solutions adapt to your vision and scale with your needs.

/ Why Choose Electra's Temporary Structures?

As one of the Middle East's leading providers of tent and marquee rental solutions, **Electra** offers a wide selection of **high-performance structures** tailored to suit any event – from grand exhibitions and gala dinners to intimate gatherings and technical back-of-house needs.

Our inventory includes **classic marquees, domes, polygonal shapes**, and other innovative structures – each engineered for **impact, efficiency, and versatility**.

Temporary structures have multiple benefits

VARIETY

A wide range of shapes, sizes, and styles to suit every event – formal or casual, corporate or cultural.

MODULARITY

Seamlessly connect multiple units to create larger footprints, dedicated entrances, or separate service zones for operations and technical teams.

FLEXIBILITY

Effortlessly adapt to your venue. Cover a plaza, terrace, car park, or poolside to extend or transform any outdoor area.

CUSTOMISATION

Get the exact look and functionality you need – with custom options for branding, colours, frontage, roofing, flooring, windows, doors, and more.

AVAILABILITY

Rent by the day, week, or up to six months. Quick deployment with responsive on-ground teams in **Dubai and Riyadh**.

COST EFFICIENCY

A smart alternative to traditional venues, offering premium finishes without the overheads of permanent spaces.

SAFETY

All structures comply with **strict international safety standards**, including fire-resistant materials, safe access, secure cabling, and structural integrity.

SUSTAINABILITY

By choosing rental over permanent builds, you're making a greener choice. Our tents are **reused, recycled, and repurposed** across multiple projects. We also offer **eco-friendly structures** with **energy-saving features, recyclable fabrics**, and sustainable flooring options – all aligned with your environmental goals.

EXPLORE THE UNIQUE SELECTION OF CREATIVE EVENT SPACES

/ Sustainability In Temporary Structures - Smarter by Design

At Electra, sustainability is not just a promise - it's a practice embedded in every stage of our operations. We manage **logistics, transportation, packing, installation, and dismantling in-house**, giving us full control to reduce energy use, minimise waste, and optimise material efficiency across the lifecycle of each structure.

As an **ISO 14001 certified company** and holder of an **EcoVadis Committed badge**, we adhere to globally recognised standards in environmental management and corporate responsibility - continuously improving our performance for a more sustainable future.

LONG-LIFE TEMPORARY STRUCTURES

Our tents and pavilions are constructed from **high-grade, durable materials** designed for long-term use. Components are modular, reusable, and recyclable – reducing waste and supporting a circular approach to temporary architecture.

LOW-WASTE PVC

We use **top-tier European PVC** that remains intact across multiple uses. When recycling is needed, materials are returned to our supplier's **closed-loop product bank** and processed into new raw materials.

THE CUBE: ENERGY-EFFICIENT BY DESIGN

The Cube features a **pressurised roof** and **enhanced insulation** system that reduces fuel consumption by **up to 15%** compared to traditional temporary structures – making it a standout choice for eco-conscious, high-impact builds.

ECO-FRIENDLY FLOORING

Our temporary structures feature **FSC-certified European spruce wood** flooring – a responsible, renewable alternative to plywood that combines sustainability with aesthetic appeal.

RECYCLABLE DECOR AND CUSTOM ELEMENTS

From majlis seating areas to bespoke dividers, all wood and metal elements used in our interior fit-outs are either **reused** or **recycled locally in the UAE**, contributing to the region's circular economy and reducing landfill waste.

SLIK: OUR ZERO-WASTE MODULAR SYSTEM

SLIK, our innovative zero waste re-usable modular solution, is ideal for creating walls, display cases and shelving for any events, including to divide the space inside temporary structures. The separate components can be assembled in different configurations, dismantled and then utilized more than once.

WITH ELECTRA, SUSTAINABILITY IS INTEGRATED – NOT OPTIONAL. PARTNER WITH A PRODUCTION HOUSE THAT DELIVERS PREMIUM STRUCTURES WITH A LIGHTER FOOTPRINT, BACKED BY INTERNATIONAL STANDARDS AND REGIONAL LEADERSHIP IN RESPONSIBLE EVENT SOLUTIONS.

/ Woodline

Where Innovation meets Sustainability.

Woodline represents timeless sophistication with its authentic wood-look framework and classic elegance. Enhanced by innovative aluminium profiles, it offers exceptional durability and structural stability while blending traditional aesthetics with modern engineering.

Featuring 360-degree transparency, customizable sizes, and quick, straightforward assembly, Woodline sets the stage for unforgettable experiences.

- Ideal for exhibitions, weddings, VIP events, and hospitality settings, its versatile design adapts beautifully to a wide range of occasions.

Electra redefines the essence of stylish, eco-conscious event spaces. Designed with adaptability in mind, it offers a unique solution for corporate events, sports gatherings, brand activations, and hospitality villages. Whether providing shade for an outdoor event or creating a premium guest experience, Electra delivers both form and function.

- Available in four convenient sizes, this tent combines sleek aesthetics with sustainable design, offering a modern venue to celebrate, connect, and inspire.

THE CUBE

/ Pagoda

Pagoda tents offer a stylish, compact solution for small to medium-sized events. With their distinctive pyramid-shaped roof and elegant silhouette, they're ideal as entryways, reception areas, or retail spaces.

- Quick to assemble and cost-effective, Pagodas are freestanding structures supported by a tensioned frame—without the need for a center pole. Made from high-quality PVC, they combine classic appeal with modern functionality.

Available in four convenient sizes, the Pagoda offers a range of customisation options to suit your event

needs. Choose between open or closed configurations depending on the setting.

- Perfect for use as a site office, shaded outdoor area, or even guest accommodation in a hospitality village, the Pagoda combines flexibility with timeless design.

PRODUCT BENEFITS

- / Can be an open or closed structure
- / 5m x 5m and 10m x 10m available in Double Deck

ARCUM

THE CUBE

/ Dome

The Dome is a sophisticated and versatile alternative to the traditional marquee. With its striking geodesic design, this modern structure makes a bold architectural statement while offering exceptional functionality.

Lightweight yet durable, the Dome can be installed almost anywhere in as little as 6 to 48 hours, depending on size. Available in three convenient sizes, it also features an interlocking option—allowing multiple Domes to be connected for a spacious, organically flowing layout.

- Perfect for everything from elegant dinners and receptions to press rooms, mall activations, and exhibition sign-up areas, the Dome adapts seamlessly to a variety of event needs. Its design also supports rigging, lighting, and sound equipment, making it ideal for immersive and high-spec productions.

PRODUCT BENEFITS

- / Unique sphere shape
- / Can be used also as a semi-sphere

2-SLOPE

/ 2-Slope

A timeless favourite for events, the 2-Slope Tent offers a refined twist on the classic sloping design. Its two angled rooflines meet sharply at the centre, creating a clean, graceful silhouette that adds architectural elegance to any setting.

- Spacious and customisable, the 2-Slope Tent is quick to assemble and dismantle. The canvas can also be tailored to suit your branding or event theme, making it both practical and visually striking.

Available in three sizes—each extendable in 5-metre increments—the 2-Slope Tent suits a wide range of events, from intimate gatherings to large-scale commercial functions.

- For maximum impact, position the structure on our double-deck platform to create a show-stopping, elevated space with open views of the surrounding environment.

ARCUM

THE CUBE

/ Polygonal

The Polygonal is a versatile and visually striking solution for large-scale events. Its unique multi-angled design creates a high upper volume, offering a sense of openness and luxury.

- Simple yet distinctive, the structure can be customised with lighting, furniture, and décor to suit a range of themes—from elegant galas to contemporary pop-up nightclubs. Spacious and adaptable, it's also ideal for sports competitions, large exhibitions, and high-traffic public events.

Designed for fast installation and seamless customisation, the Polygonal features a premium aluminium frame paired with high-quality PVC canvas. Choose a full grey roof for elegant shading, or a clear roof to welcome natural light—or enjoy unimpeded views of the night sky.

- Available in various widths, with extendable length in 5-metre increments, the Polygonal can also be combined with our Double-Deck structure to create elevated event spaces with breathtaking views.

PRODUCT BENEFITS

ARCUM

THE CUBE

/ Arcum

A softer, more modern interpretation of the traditional two-sloped tent, the Arcum features a gracefully curved roof formed by two gentle slopes meeting in a smooth arc—offering a contemporary edge with timeless appeal.

- Gracious and stylish, the Arcum creates a light, open ambiance that's both spacious and sophisticated. It's an ideal setting for banquets, weddings, fashion shows, and other elegant gatherings.

The Arcum's frontage can be customised to suit your event theme or brand identity. A variety of glazed or solid panel options are available to add decorative flair and elevate the structure's overall look.

- Available in two standard widths, with lengths extendable in 5-metre increments, the Arcum offers flexible sizing to suit both intimate and large-scale occasions.

THE CUBE

/ The Cube

With its clean façade and invisible roofline, the Cube offers the closest experience to a permanent building in a temporary structure. Its modular system of interchangeable panels allows for quick, simple assembly and complete layout flexibility.

Ideal for weddings, galas, corporate events, and even concerts, the Cube is available in four widths with extendable lengths in 5-metre increments. Customise the exterior with a second skin for sleek, straight walls, or remove the roof to create an open-air atrium.

- Interior and exterior options include full branding, and technical equipment like generators or chillers can be discreetly housed in the smallest Cube module for a clean, streamlined finish.

PRODUCT BENEFITS

- / Quick to build, cost effective
- / Multiple customisation options from size, panels and second skin option

/ 3 ACCESSORIES

Choose from our wide range of accessories to personalize your event. We offer a variety of customization options, including tailored fittings and stylish furnishings to match your vision.

/ Accessories

FLOORING

A great event starts from the ground up. We offer high-quality and sustainable flooring solutions for any surface—sand, grass, concrete—ensuring stability and style for every occasion.

Standard

- / Cassette flooring
- / The eco-friendly floor locking system is made using spruce wood from Europe certified by FSC (Forest Stewardship Council) an NGO setting environmentally responsible forestry standards. This certification is considered the gold standard for harvested wood. With a height of 17cm it can hold 500 kilos per square metre making it a safe and efficient option to accommodate extra weight.

Customisation

- / Carpet
- / Lino
- / Ramps and stairs can be custom-made to fit any height including disabled access
- / Endless possibilities available upon request

DOORS

Standard

- / Double door set with windows in white
- / Includes emergency push bar access and lockable door for extra safety and security

Customisation

- / Single door on request
- / Double doors (no window) on request

Placement of doors

- / Centre
- / Left of the structure leg
- / Right of the structure leg
- / 2x double doors side by side

NOTE - Doors cannot be used if bracing is in place

PANELS AND WINDOWS

Standard

- / Horizontal hard panel white
- / Horizontal glass panel

Customisation

- / Coloured panels upon request
- / Sticker/graphics for branding or coloured panels

Façade/second skin

- / Mashrabiya
- / Standard graphic banner
- / Curved graphic banner
- / Light box
- / Bespoke design elements available upon request

ROOFS, WALLS, GABLES

Standard Roof

- / Black-out/opaque roof in white

Roof Customisation

- / Transparent/crystal roof
- / Translucent
- / Option to have closed/inside gables
- / Coloured
- / Branded

/ Accessories

AIR CONDITIONING AND VENTILATION

In the hot and often humid Middle Eastern climate, maintaining comfort is essential. We offer both free-standing and ducted air conditioning solutions to ensure your event stays cool and comfortable.

Think sustainable and add solar panels to reduce energy consumption.

Customisation

- / Free standing AC solutions for all tent structures upon request
- / Ducted AC solutions for large-scale events upon request
- / Custom made covers upon request

CLADDING

Customize your event structure with flexible exterior options. Depending on the size, we offer full branding with printed banners or fabric, and cladding in wood or aluminum—designed to reflect your event theme or corporate colors.

LIGHTING

We provide the following standard choices which can be customised to suit your lighting scheme:

- / Arm lights
- / Bay and flood lighting
- / Down lighters
- / Track light and spot lights
- / LED bar and tube lights
- / Rope and strip light
- / Emergency and first batteries
- / Truss, sockets and plugs
- / Lamps and decorative lights
- / Decorative lights

FURNITURE & DECOR

Elevate your event space with our curated collection of furniture, décor, and fittings. Choose from a range of exclusive designs, or work with our skilled carpenters, painters, and upholsterers to customize any piece and create made-to-measure elements that perfectly match your vision.

Décor

- / Furniture rental items
- / Drapes and curtains
- / Mashrabiya walls
- / Majilis areas
- / AC covers
- / Bespoke elements upon request
